

ANIMAL ALLERGY TESTING

an inexpensive way to treat your pet

DOES YOUR PET SUFFER FROM
OR BEEN DIAGNOSED WITH

**ARTHRITIS
CONSTIPATION / DIARRHOEA
DIGESTIVE PROBLEM
EAR & EYE CONDITIONS**

**RASHES & ITCHY SKIN
LUNG CONDITIONS
SINUS INFECTIONS
ECZEMA / HAIR LOSS**

FIND OUT WHICH FOODS ARE MAKING YOUR PET UNWELL

Like people, many animals suffer from allergies.

Today your pet is subject to a wide range of foods and chemicals. This often results in many allergies and toxic overload.

Our test of 223 pet items ensures you will be giving your pet the safest foods and products to achieve and maintain their good health and wellbeing.

**NO NEEDLES OR BLOOD TEST
SAFE AND ACCURATE**

We use modern electronic equipment that works from a hair sample.

Our test is safe, accurate and has no harmful side effects. Medications will not affect this test.

Animals can suffer allergic reactions in the same manner as humans.

Allergic reactions result in excess histamine and other inflammatory substances which can cause pain and inflammation anywhere in the body.

We have treated many dogs suffering from such complaints as arthritis, itchy skin, digestive problems.

One dog's arthritis cleared by removing beef from her diet. Another dog's red scaly skin was from eating chicken.

223 ITEMS TESTED BY HAIR SAMPLE FOR ONLY \$167.00

Simply send a small clump of your pet's hair (enough to cover the shaded area below) and we will test for all the items listed on the test sheet.

Send Hair sample in an envelope or plastic bag.

A cheque, money order or credit card is acceptable.

Please complete the following form:

Owner's Name.....
